

EXCAVATION SUPPORT | SOIL NAILING | TIEBACKS

CENTERPOINT CONDOMINIUMS - TEMPE, ARIZONA

To provide additional parking in an already congested location, Centerpoint Condominiums, a high-end condo project in busy downtown Tempe, AZ, required an excavation exceeding 50 feet in depth. Schnabel installed a mixture of battered and vertical temporary soil nail walls, as well as tieback soldier pile walls in order to protect existing structures, roads and utilities around the site perimeter.
